## Bubba's Food

Sara Smith, who lives in San Francisco, went shopping for cat food.

Sara is 30, and lives at 3037 Market St. She **has lived** there since 1990. Sara is married. She is married to a man named John. She **has been** married for 7 years.

They have two children, and one very big cat. Their son Bob is five years old and their daughter Nancy is three. Their cat, Bubba, is 2 years old. Bubba is **huge**. He weighs 258 pounds (117 kilos)!

At 9am, Sara **got into** her car and **drove** to the pet store. She **bought** 68 bags of cat food for \$10 each plus tax. The regular price was \$15, so she **got a good deal**. The total was \$680. She paid by credit card.

**On her way home**, Sara stopped at a convenience store to buy milk. Bubba loves milk. The milk was \$3.00 for one gallon, and Sara bought 30 gallons. She paid \$100 and got \$10 **back in change**.

Sara **got home** at 11 a.m. Bubba was waiting at the door. He was very hungry.
